MEMORANDUM OF UNDERSTANDING

In every hard work, there is a reward, but empty talk leads to poverty. Let's unite our efforts, strive for justice, and work diligently to succeed. **The Post Graduate and Research Department of Rehabilitation Science, Holy Cross College, Tiruchirappalli, and UniteUniques Institute for Inclusion (OPC) Private Limited, Pudukkottai** have come together to collaborate and support each other in areas of shared interest and benefit. This agreement focuses on enhancing cooperation in education and rehabilitation for individuals with special needs. Rooted in fairness and mutual respect, this agreement will serve as a foundational framework for collaboration between our two institutions.

The PG & Department of Rehabilitation Science, Holy Cross College, Tiruchirappalli is dedicated to educating and training competent individuals to assist people with special needs in society. Offering diploma, undergraduate, postgraduate, PhD, and customized courses, the department aims to prepare a skilled workforce to support individuals with disabilities across all categories. Since its establishment, the department has enhanced its expertise, training, and research through collaborations with numerous local, national, and international organizations, sharing knowledge and resources in diverse ways.

UniteUniques Institute for Inclusion (OPC) Private Limited in Pudukkottai:

The Indian National Education Policy highlights the necessity of innovation and alternative methods to enable individuals with disabilities to access educational and career prospects. Our background in delivering education and vocational training to individuals with disabilities sparked a startup idea to establish an online platform. This platform aims to connect professionals from various disciplines and stakeholders to offer educational and vocational training opportunities to individuals with disabilities at their homes while promoting social inclusion.

OBJECTIVES AND FORMS OF COOPERATION:

- Collaborate with professionals from both institutions to enrich students and research scholars with new perspectives in disability studies.
- Work together to develop the startup idea, **DigiHome Ed-Tech**, into an effective service model.
- Support research in disability and rehabilitation.
- Offer tailored courses and programs involving both institutions.
- Identify and enhance student and research scholar interests and experiences.
- Arrange institution visits, internships/placements, and training programs to enhance student and research scholar knowledge and skills.
- Utilize various resources such as therapy materials, reading materials, books, audiovisual equipment, ICT tools, and other useful materials in the disability and rehabilitation field.

COMMENCEMENT, RENEWAL, TERMINATION AND AMENDMENT:

- Once representatives from both partner institutions sign this Memorandum of Understanding (MOU), it will come into effect and remain valid for five years.
- If needed, the MOU can be extended with the agreement of both partners. If one partner wishes to terminate the MOU after the initial five-year period, a six-month notice is required before its expiration.
- The agreement, its renewal, and any actions taken can be revisited at any point. Changes can be implemented through mutual consent, and any modifications or extensions can be formalized by exchanging letters between the two parties.
