52. Perceptual and Acoustic similarities in voice and Articulatory characteristics of Monozygotic and Dizygotic Twins
53. Motor Neuron Disease-A case study
54. Effect of different blood groups on Auditory Brainstem Response findings
55. Association of Distortion Product Otoacoustic Emissions in individuals with Distinct Skin Pigment
56. Effect of different blood groups on DPOAE Input- Output Function
57. Comparison of MOCB functioning and temporal abilities between individuals with and without musical abilities
58. Test – retest reliability of Dichotic Listening test in Younger adults with Normal Hearing
59. Influence of Hormonal changes in females on auditory processing abilities across phases of the menstrual cycle
60. Mass hearing screening program among school going children in rural areas of Tiruchirappalli district of Tamil Nadu
61. Acoustic and aerodynamic analysis in Nadaswaram players – Wind instrument
62. Effects of Diurnal changes on Dichotic Listening in older adults with normal hearing
63. Effect of age and diurnal preference on binaural integrationabilities
64. Effects of rhesus negative blood group on auditory brainstem response findings
65. A Comparative Study on Perceptual and Aerodynamic Analysis of Voice between College-Going National Cadet Corps [NCC] & Non-National Cadet Corps
66. Quality of life for children with cochlear implant
67. Subjective and objective analysis of voice in street vendors
68. Comparative Study on Pre- and Post-Vocal Loading among Special Educator
69. Profiling the Speech and Language Characteristics in Craniosynostosis – A Single Case Study
70. Assessment And Management of Treacher Collins Syndrome-A Single Case Study
71. Three Case Series of Suspected Virtual Autism: Case Reports
72. Awareness Of Meniere’s Disease Among College Going Students
73. Early Identification and Intervention of Hearing Impairment in a Pediatric – Single Case Study
74. Effect of Age and Musicianship on Auditory Stream Segregation
75. Exploring the effective transition from Wernicke's to Anomic : A single case study
76. Profiling the language and quality of life of a person With Broca’s Aphasia: A Case Study
77. Knowledge of role of Speech Language Pathologist and management options for Post Stroke Aphasia among Medical and Allied Health Students
78. Cognitive –Linguistic Profiling in Non –Fluent Primary Progressive Aphasia- Case study
79. Analysis of eating, mealtime behaviors and feeding difficulties in children with autism spectrum disorder
80. Dysphagia related quality of life in head and neck cancer survivor
81. Prevalence characteristics of dysphagia in Tiruchirappalli district based on population study-a survey
82. Plummer Vinson Syndrome - case report
83. Dysphagia related quality of life among stroke survivor
84. Dysphagia symptoms and quality of life in individuals with diabetes mellitus
85. Pre and post knowledge of dysphagia in college students
86. Knowledge of swallowing risk among elderly adults dwelling in old age homes
87. Knowledge of speech language pathologist regarding pediatrics feeding disorder

ORAL/ POSTERS PAPER PRESENTED

1. Awareness and attitude of parents with children with Autism Spectrum Disorders
2. Basal Ganglia Calcification : A Single Case Study
3. Speech rate adjustments in speech language pathologists during natural and quasi natural environments
4. An exploratory study investigating the parent's feeling and perception towards their children with communication disorders
5. Profiling the Audiological findings and Speech Language characteristics in Meconium Aspiration Syndrome.
