**"Intelligence plus Character
- Is the goal of true Education"**
- Martin Luther King. Jr.

Holy Cross College has played a significant part educating, nurturing and creating energetic and brilliant young minds for decades, to be transformed into responsible and sensible human beings. Holy Crossians are educated and geared with strength of character, illuminated minds and a strong value system, which help them to face great challenges in life. Thanks to this holistic development imparted to them by their Alma Mater.

Women Empowerment is the need of the hour and has become the elixir of life. Through this empowerment boundaries can be breached, traditions can be broken, promises of salvation and freedom can resound. Holy Cross College has been striving to help young women empower themselves, with a grit of strong character and will, and the power to achieve mile stones and realize the unthinkable dreams in their lives.

The theme of 'HOLY ROOD' 2015-2016 is 'Mercy in this Global Era'. What is Mercy? Does it make our lives better in this technologically advanced world? The answer is 'yes'. All religions and creeds talk about this word 'Mercy'- with the same resonance. As the Bible says, "Blessed are the merciful, for they shall obtain mercy" (Matt 5:7). This word mercy could mean compassion, understanding, love, concern, pity etc. We learn that when we are merciful towards others, God's mercy would illuminate our lives.

Holy Crossians are blessed because they are guided and directed on to the right path and enjoy many soul filling experiences imparted to them by the Value Education Department, the academic and extra-curricular activities, and Rescapes. They learn to reach out to the one's in need. They learn to share and be generous towards the suffering. They learn not only to pity but to empathize with others- and this process helps them to blossom into good human beings.

This world could become a better place more beautiful, sacred and more compassionate, if mercy reigns amongst us. This supreme quality 'Mercy' attains the zenith of humaneness when a man goes out of his way to help another in need. Each one has a choice of acquiring this magnificent quality. It acts as a bridge that connects God and man. So being merciful to others will make our lives more meaningful, more responsible and more heaven like. Let's inculcate and radiate God's 'Mercy' in our lives

Ph. D. ABSTRACT

**CULTURAL INTERGRATION AND THE DEVELOPMENT OF
A CANADIAN NATIONAL CONSCIOUSNESS AND IDENTITY- AN
ANALYTIC STUDY OF THE NOVELS OF HUGH MACLENNAN**

The search for a national identity has been a central concern of English- Canadian culture since the creation of the dominion of Canada in 1867. At a time when the Canadians were hungry for a spokesman, and when there was a tremendous growth of national feeling cutting across political, racial and social lines, MacLennan emerged as the first major English speaking writer to attempt a portrayal of Canada's national consciousness and identity. He worked with themes that mirrored major national concerns and the

moral and social issues of his time like the English-French conflict and their feverish race to assert cultural identity. The dissertation explores the way Canadians defined their identity in the context of a simmering cultural conflict. It has been a consistent view of the researcher that the novels of MacLennan present the emerging national Consciousness and the development of a Canadian National Character and Identity in the context of a persisting cultural duality.

The Beauty of Mercy

*Beauty resides in the sweet smile of a baby,
Beauty resides in the fresh blossoms of flowers,
Beauty resides in the ferocious sounds of animals,
Beauty resides in the fresh pool of water,
But, beauty resides in human heart;
Only when his Mercy is portrayed!
The sinners are bound to salvation,
As mercy is the cleanser of all sins !
Mercy becomes your virtue,
When a penny is given to a needy hand
And a drop of water is given to the thirsty!*

Ph. D. ABSTRACT

**A STUDY ON WATER MANAGEMENT BY HOUSEHOLD
CONSUMERS IN TIRUCHIRAPPALLI CITY, TAMIL NADU**

Water is a basic human need and a precious natural resource. Among the varied uses of water, household use commands top priority because of its requirement for the very survival of humanity. Due to increase in population and growth and development in various sectors, the demand for water has increased tremendously. Considering the supply side, due to climatic changes, pollution and mismanagement there is reduction in the availability of usable fresh water. Hence, there is a need to analyse water management practices at all levels including household level.

This study on water management by household consumers in Tiruchirappalli city was undertaken with the objective of finding out water management practices concerning selection of water source, quantity of water used and water conservation measures followed, water safety management, water cost incurred, level of satisfaction concerning existing water supply, preferences for future and sustainability aspects. Primary data for analysis were collected from 410 sample households from the four zones, using stratified random sampling method. SPSS package was used to analyse the primary data.

The study revealed that all sample households have access to improved water sources.

Quantity of water available from a source is the main factor considered by households to select the water source. In most of the households, women take decisions concerning water source and other water issues. Tap water within premises supplied by the Corporation is the main source for majority of households for drinking and food preparation and the

percentage preferring the same in future is higher than the present percentage. This is because majority of households are satisfied with the overall service quality of drinking water supply by the Corporation. For other purposes, bore well in-house is the main source for a maximum of households and the percentage preferring the same in future is little lower than the present percentage. Majority of households use quantity of water within the range prescribed by national and international standards. Majority of households have effectively operating rain water harvesting structure and majority follow water conservation measures. Majority have awareness about water associated diseases like cholera, diarrhoea, typhoid and dysentery and majority of households treat water at home to make it safer to drink. Water cost has been ascertained for households and for majority of households, water cost constitutes up to three per cent of their household income. A model for assessing sustainable household water management was developed based on sustainability indicators. The assessment showed that majority of households fall under the category 'good' in sustainable household water management.

As education status has positive relationship with sustainable household water management, it is recommended to enhance the education status. Involving women in household water projects and community participation in water related matters are recommended.

It is also recommended that public authorities must continue water supply, to enable the citizens to realise the right to water in an equitable way.

MITIGATION OF SODIUM CHLORIDE INDUCED SALINITY STRESS BY SARGASSUM wightii J.Agardh AND Ulva lactuca L. in Sorghum bicolor (L.) Moench.

In India, nearly 9.38 million ha area is occupied by salt-affected soils. A tentative estimate is that the salt affected soils will constitute about 15.5 million ha area in the country by 2030. So this work was designed to find a solution to mitigate the harmful effects of sodium chloride salinity by using biostimulants such as seaweeds, which are biodegradable, nontoxic, non-polluting and non-hazardous to human, animals and birds, and to utilize the saline lands and saline water to increase the productivity of crops.

The work was carried out in *Sorghum bicolor* (L.) Moench belonging to the family Poaceae. The plants were treated with 100 and 200mM NaCl. In addition the plants were supplemented with aqueous extracts of the two seaweeds, *Ulva lactuca* and *Sargassum wightii*. The concentrations of sodium chloride used were found to be harmful to plants which results in stunted growth, reduced levels of pigments, starch, protein and an accumulation of total

sugars, amino acids, proline, antioxidants (enzymatic and non-enzymatic) and an enhanced activity of amylase and protease. An accumulation of Na^+ and reduction in levels of K^+ and Ca^{2+} were also observed. All these harmful effects were found to be mitigated by the supplemented seaweed extracts. Protein profile using SDS-PAGE and Isozyme for Ascorbate peroxidase (APX) and Super oxide dismutase (SOD) using native PAGE were analyzed and they showed differential expression. Among the two seaweeds used *Sargassum* was found to be more effective and among the two concentrations used 2% was found to be efficient in ameliorating the harmful effects of NaCl.

GC-MS, FTIR and UV spectrometer analysis of both the alga were carried out. GC-MS analysis of *Sargassum* and *Ulva* showed 11 and 13 phytoconstituents respectively with ethanol extract. Using FTIR and UV spectrometer, the major functional groups of the phytoconstituents were identified with water, hexane and methanol extracts.

**PERCEIVED SELF-EFFICACY OF TEACHER EDUCATORS OF
COLLEGES OF EDUCATION IN RELATION TO THEIR TEACHING
COMPETENCY AND ATTITUDE TOWARDS TEACHING.**

The researcher attempted to investigate into the "Perceived Self-Efficacy of Teacher Educators of Colleges of Education in Relation to their Teaching Competency and Attitude Towards Teaching".

Reviewed related literature, updated the research work done up to 2014 and recorded them in an acceptable form. The studies related to perceived self-efficacy, teaching competency and attitude towards teaching in India and Abroad.

The study followed the normative survey technique. The sample selected (N=480) is found representative and simple random sampling technique is followed. The researcher has developed two tools namely Teacher Educators' Perceived Self-Efficacy Scale and Teacher Educators' Teaching Competency Scale. The validity and the reliability of

the tools are well established

The data which includes descriptive analysis, percentage analysis, differential analysis and relational analysis were adopted

It is found that 67.3% of the teacher educators are having moderate level of perceived self-efficacy, 18.5% of the teacher educators are having high level of perceived self efficacy and 14.2% of the teacher educators are having low level of perceived self-efficacy. It is found that 13.3%, 72.6% and 14.1% of the sample have low, moderate and high level of teaching competency. It is found that 17.1%, 64.6% and 18.3% of the sample have low, moderate and high level of attitude towards teaching. Significant and positive relationship is found between perceived self-efficacy, teaching competency and attitude towards teaching of teacher educators.

Look at them!

Living in that world of vogue,

They never knew what they are searching for,

Having their own pride',

Living a self- centered life,

Never will they be able to face their own problems

Yes, the doom of these days will come,

They will come to know their quest

Behold! he will be there to judge you,

Don't you then plead for his mercy?

Because you will then come to know,

The whole journey of your life was the search for His Mercy.

THE SEARCH FOR LIFE...

**A JOURNEY TOWARDS SELF- ACTUALIZATION IN ROBERTSON
DAVIES THE SALTERTON AND THE DEPTFORD TRILOGIES**

The desire to explore the subjective, even irrational foundation of human experiences is one of the defining characteristics of modern culture. This trait has perhaps been most strongly manifested in the efforts of various artists to integrate psychological and more specifically the humanistic psychological theory in their work. Twentieth century literature has demonstrated particular affinities in this regard. The Humanistic Psychology, a branch of psychology reveals the true meaning of the text' in terms of 'revealing the true meaning of life. Central to the Humanistic theories of Carl Rogers and Abraham Maslow, are the subjective conscious experiences of the individual which regard personal growth and fulfillment in life as a basic human motive. Each individual grows in a favourable psychological climate where a process of 'Becoming' takes place and here the individual drops one after another of the defensive masks and emerges as a person and enhances his/her self. The term 'Self-Actualization', usually found in older people, fulfill themselves and do best they are capable of doing, echoes Nietzsche's exhortation, "Become what thou art!". These people develop their full stature of their talents, capacities and potentialities. This psychological growth, helps Self-Actualized

people to experience fulfilled and satisfied lives.

Davies' literary appropriation of Jungian theory is striking in both, its intellectual rigour and thematic importance. Analytical psychology, as Jung's theories are collectively termed, was a subject of intensive study by Davies in his writings. But, the ambition of this dissertation is to explore the role of the humanistic psychologist's , Carl Roger's theory on 'Becoming a Person' and Abraham Maslow's theory on 'Self-Actualization' in connection with the psychological development of characters in Davies two trilogies, The Salterton and The Deptford. The thesis is an indepth examination of the myriad ways in which few selected theories of Maslow's and Roger's will be interpreted in connection with the psychological growth of Davies' select characters from the two trilogies in terms of becoming Self-Actualized beings. The study will also attempt to delineate the important role played by a few characters, who direct and channelize the lives of the immature beings to learn from their mistakes, shortcomings and are given a proper direction towards Self-Actualization. The scope of the dissertation is confined to the journey of self towards Self-Actualization, in order to allow a more careful scrutiny of certain crucial concepts of humanistic psychology.

STUDIES ON PHOTOCATALYTIC DEGRADATION OF HARMFUL POLLUTANTS USING METAL DECORATED TiO_2 AND SrTiO_3 NANO CATALYSTS

Mushroom growth of dye and textile industries in urban as well as rural riverside areas result in the accumulation of highly contaminated water bodies. Similarly leaching of agrochemicals such as insecticides and pesticides equally contribute to water pollution. These harmful pollutants are the real trouble makers for the water bodies present in our environment. If these pollutants remain in the water bodies as such, they will create severe ecological problems to the environment especially to human beings and other flora and fauna. Hence, prior treatment is needed before their disposal into the environment. Advanced oxidation process using heterogeneous, semiconductor based photo catalysts is the promising alternative technology for the purification of wide variety of pollutants. To date, TiO_2 ($E_g > 3.2 \text{ eV}$) has been proved to be one of the best catalysts for widespread environmental applications due to its high photosensitivity, stability and non-toxicity. SrTiO_3 is another widely used semiconductor photo catalyst with similar band gap and similar properties. The present study focuses on the preparation, characterization and photo catalytic performance of nano TiO_2 , Ni/Ru impregnated TiO_2 , SrTiO_3 and Ni/Ru doped SrTiO_3 photo catalysts. Titanium dioxide was synthesized using sol-gel method and Ni/Ru impregnated TiO_2 were synthesized using simple wet impregnation method. Strontium titanate catalysts were synthesized using sol-gel

technique. All the synthesized photo catalysts were characterized by using various instrumental techniques namely XRD, UV-DRS, Raman, FT-IR, SEM-EDS, TEM and XPS.

The photo catalytic activities of titania and titanate catalysts were evaluated towards the degradation of three dyes, Amidoblack -10B, Congored and Rhodamine-B and three insecticides namely Acetamiprid, Imidacloprid and Thiamethoxam under UV irradiation. Complete (100%) degradation of all the dyes and insecticides was observed but at different reaction times for both titania and strontium titanate catalysts. Among titania catalysts, (1%) Ru/ TiO_2 and among strontium titanate catalysts, (1%) Ni-Sr TiO_3 showed better photo catalytic activity than other catalysts. The best catalysts (1%) Ru/ TiO_2 and (1%) Ni-Sr TiO_3 has also been tested in solar irradiation and the results were very similar to UV irradiation results. Highly contaminated real textile effluent collected from an textile industry near Erode was irradiated about 8 h using (1%) Ru/ TiO_2 and (1%) Ni-Sr TiO_3 catalysts showed 25% and 17% mineralization of effluent respectively. Among the dyes CR degraded quickly whereas among insecticides IMI degraded quickly. In order to understand the complete mineralization in depth analysis of the degraded samples was made using UV-Vis spectrophotometer, HPLC and TOC analyzer using the best catalyst (1%) Ru/ TiO_2 . UV-spectral studies and HPLC results showed 100% degradation of all the dyes and insecticides at different times of irradiation.

**STUDIES ON SPOROPHYTIC AND GAMETOPHYTIC PHASES OF AN
IMPORTANT MEDICINAL FERN *ACTINIOPTERIS RADIATA*
(SWARTZ) LINK.**

In recent years attempts are being made to screen out the better known plants, which have medicinal values. The ethanobotanical survey also clearly indicates that the Pteridophytes play a vital role in their life and also immense economic importance. A number of contributors have been published about the taxonomy, ecology and distribution of Pteridophyte. But enough attention has not been paid towards their useful aspects, especially the tissue culture, phytochemical, antioxidant and antimicrobial parts. *Actiniopteris radiata* (Swartz) Link. is a fern belonging to the family Pteridaceae. The present investigation deals with *in vitro* spore culture, phytochemical analysis, antioxidant activity and antimicrobial activity of *Actiniopteris radiata* (Swartz) Link. which covers the gametophytic and sporophytic phases of this important medicinal fern. The thesis covers the chapters under the headings Introduction, Review of Literature, Materials and Methods, Results, Discussion, Summary and Conclusion and Bibliography. The outcome of the study was summarized as follows, In Gametophytic phase studies, Life cycle and its protocol was derived through tissue culture experiments as a conservatory method for this important medicinal fern. The phytochemical profiling of sporophytes such as qualitative, quantitative and chromatographic techniques GC-MS and HPLC revealed the presence of five bioactive

compounds such as Hexadecanoic acid, ethyl ester, 9,12-Octadecadienoic acid, methyl ester, (E,E)-, (E)-9-Octadecenoic acid ethyl ester, Docosanoic acid, ethyl ester and Heptadecanoic acid, heptadecyl ester. HPLC analysis showed the presence of five flavonoid compounds such as Gallic acid, Caffeic acid, Rutin, Quercetin and Ferulic acid. Studies on pharmacological evaluations of sporophyte explained antioxidant and antimicrobial activity. When compared to ethanolic extract, the methanolic extract possessed strong free radical scavenging activity. The antimicrobial screening of extracts of *A. radiata* were investigated through disc diffusion, agar well and streak plate methods. In all the methods studied, the results showed that, of the two gram-positive bacteria tested, the highest activity was recorded in *B. subtilis* and moderate activity was observed in *S. aureus*. In the gram-negative bacteria, a maximum inhibition was observed in *E. coli* and the moderate activity was observed against *S. typhi*. The broad spectrum of antibacterial activity exhibited in *A. radiata* may be attributed may be due to the presence of flavonoid and phenolic compounds present. Therefore the active constituents present in this fern would be helpful in treating various kinds of diseases. Hence the present findings provide a scientific base for some of the medicinal claims of *A. radiata*.

INVESTIGATIONS ON THE ENZYMES OF *LAMPITO MAURITII* (KINBERG) WITH SPECIAL REFERENCE TO ANTI MICROBIAL, ANTI OXIDANT AND ANTI CANCER ACTIVITIES

Earthworms can be used not only in environmental monitoring but also to acquaint the novel molecules for human therapeutic purposes. Earthworm powder has been used as a drug to improve blood circulation and to treat apoplectic stroke. Earthworm Fibrinolytic Enzyme (EFE) indicated that, it has tremendous potential to dissolve thrombus in circulatory pipelines. This work was designed to investigate fibrinolytic enzymes with anti microbial, anti oxidant and anti cancer activities from *L. mauritii*. Totally Forty fractions were collected from gel filtrated crude extract. The fibrinolytic protease activity exhibited only in the crude, fractions 6, 8, 11 and 13. The molecular weights of

crude and four fractions were determined by SDS-PAGE. Significant increased level of anti-microbial against various pathogens and increased levels of SOD, CAT and GPx suggest that the fibrinolytic enzyme of *Lampito* is non-toxic to human being. Increased cytotoxicity, induced apoptosis and decreased Bcl-2 and pBcl-2 protein expression in HT-29 treated cell lines show the anti-cancer effect of the fibrinolytic enzyme. Though crude and four fractions show fibrinolytic activity, yet the fraction 11 was more potent than other fractions. Hence, it could be considered for the preparation of potent anti cancer drug.

**WOMEN EMPOWERMENT THROUGH ENTREPRENEURIAL
DEVELOPMENT TRAINING PROGRAMME**

**A STUDY CONDUCTED AMONG WOMEN SELF HELP GROUPS UNDER
MAHALIR THITTAM (MATHI) IN TIRUCHIRAPPALLI DISTRICT (2007 APRIL – 2011 MARCH)**

Entrepreneurial initiatives through women self help groups have brought about women empowerment which in its turn has ushered in revolutionary change in our economy. The study on women empowerment through entrepreneurial development training programme (EDTP) under the *Mahalir Thittam (MATHI)* conducted in Tiruchirappalli District, through reviews and reflection has evolved the following indicators of women empowerment: Social empowerment, Training aspects, Business orientation training, Satisfaction of training, Economic Factor of the trainees, Confidence level of women after training, Awareness of the legal rights, Business factors helpful to growth, Services accessed by women entrepreneurs, Entrepreneurial aspects of training and Problem management and the analysis/interpretation of data is based upon these indicators. The study also takes into account the various dimensions of social empowerment both before and after the training programme, which gives an insight into the change effected through such programmes.

The universe of the study consists of the total number of women belonging to SHGs of the 7 NGOs that are registered under the *MATHI* scheme and who have undergone the EDTP during the period 2007 – April to 2011 March in Tiruchirappalli District, Tamil Nadu. The total sample of 300 accounts for a sample size of 35% of the universe. The type of research is descriptive analytical research design and the sampling method is stratified disproportionate random sampling technique. The SPSS was used to process the data collected through questionnaire and statistical tools like the 't' test, ANOVA, z-test, chi-square test, inter correlation matrix test, Karl and Pearson's coefficient were applied for data analysis. The study concludes that while facilitating the socio-economic development of the women SHG members, the entrepreneurial training programme (EDTP) given by the *Mahalir Thittam (MATHI)* also enables the women SHGs to perceive and solve the practical problems encountered in pursuing the goal of their social empowerment.

“PRESS AND THE NATIONAL MOVEMENT IN TAMIL NADU WITH REFERENCE TO THE COMMONWEAL AND NEW INDIA”

The main thrust of the thesis entitled, “The Press and the National Movement in Tamil Nadu with reference to *The Commonweal* and *New India*” is the contribution of press particularly these two newspapers edited by Annie Besant to the National Movement. After analyzing the contributions of various dailies and magazines to freedom struggle the theme taken for research is very well analysed.

The Commonweal and *New India* used as a tool to explain the initiatives started by Annie Besant, the editor of the news

Papers, such as YMIA, Reading Room, YIMA Parliament, Madras Parliament, Indian Boys Scout Association, Scout Groups etc., The reaction that came from different quarters particularly non Brahmin Association is also sufficiently portrayed in the thesis. The impact of these newspapers on the intellectuals, educated elites, nationalists, swarajists and others by way of creating and strengthening national spirit was highlighted clearly with plenty of primary and secondary sources.

MERCY-THE DIVINE VALUE

"MERCY" This small word has a very powerful meaning. We usually associate this word with God Almighty as his mercy is so great. It is when we are not punished for our bad deeds and spared by the mercy of God. This heavenly attitude should be present in all of us as it is very hard to show mercy to those who have offended us. People with great character and morals possess this attitude. We should be humble and have mercy and compassion for our fellow beings. Man is prone to make mistakes but when he repents Gods shows his mercy in abundance. We should show mercy to the weak and downtrodden because in it we will be rewarded and shown mercy by God.

! Mercy is the DIVINE way of taking REVENGE!

**HISTORY OF ROMAN CATHOLIC DIOCESE OF TIRUCHIRAPPALLI
(1886-1986) – A STUDY**

The charity and humanitarian activities were the main motto of Christianity which stepped into India. Initially it was St. Thomas and St. Francis Xavier who brought Christianity to India. The factors for the growth of Christianity in India were the history of the invasions from the Northwest Himalayas. The Portuguese were the first who introduced Catholicism in India. Catholic Diocese missionaries under the French Jesuit missionaries of the new Madura Mission gave birth to Tiruchirappalli Roman catholic diocese and had a lot of difficulties and important events. In its infant days, the focus was on evangelization, but after the

Vatican council – II of 1965, it began to concentrate on the lay people and their mobilization towards the social awakening and the empowerment activities. The yeoman services of the Bishops in the diocese today can boast of progress in a variety of fields, in missionary work, in institutional expansion and in the areas of mass media of communication and inter religious dialogue. The activities and programs have enhanced the capacity of the marginalized through their pastoral commissions and the various organizations.

MERCY

To forgive an injury is often considered to be sign of weakness. But it is really a sign of strength. It is easy to allow oneself to be carried away by resentment and hate into an act of vengeance; but it takes a strong character to restrain those natural passions. The man who forgives an injury proves himself to be the superior of the man who betrayed him and puts the wrong-doer into shame. Act of mercy even turn a foe into a friend. So mercy is the noblest form of revenge. **It is the power of mercy that has inspired the peace!, It is the power of mercy that has silenced the roaring guns!, It is the power of mercy that has elevated individuals to the height of heroism!.** And the greatest symbol of mercy is Jesus Christ which is shown in words,

“Father forgive them, for they know not what they do” (Luke 23: 34) One drop of Jesus’s mercy is better than an ocean of ornamental words.

As the Head of the department she performed her duties with systematic planning, sincerity, thoughtfulness and care. A remarkable quality is her beautiful smile and calmness of mind. Her concern for friends and students was genuine. Her mastery of Acupuncture and Reiki did help others because she had a magic touch which healed people in pain.

As a person, as a teacher and as a guru she is wonderful and has touched the lives of many. A light house on the shores of Holy Cross College, her windows of life were tinted with colours of benevolence, versatility, love and affection. Her life and career stand as a testimony to the fact that success comes to those who have a combination of skills and it is the one who is able to seize opportunities who is able to do something with life. "May Almighty God shower His abundant blessings on her for a happy, peaceful and healthy retired life."

Being a student of H. C. C. in late sixties,

The CHURCH, calm and solemn answered,
Many of our prayers, attended by all
Without caste, creed and nationality.
Nice GARDEN with fountain set 'fore our eyes.

The OFFICE with the Principal and the staff
Is the real center of the steering wheel.
The LIBRARY so silent, imparts knowledge
To those who seek and search.

The HOSTEL with regulations
Moulds the mind and body with good food,
Cared by the MESS sister with mummy's pickles.
Comforting SICK ROOM with lots of care.

CLASSES and LECTURE HALLS long and large, (2)
Lectures so compact, precise and clear.
Each LAB is a fine workshop to explore,
The facts of science and technology.

The PARLOUR busy on third and fourth weekends,
Will be a nice feast to the eyes and mind.
The little STATIONARY supplied our needs of those days
OUR LADY'S HALL- seat of intellectual entertainment.

The PLAYGROUND trained many champions to
Take part in college, inter - college and national level meets
Where NCC cadets paraded with peace and perfect harmony.
Unforgettable RECREATION HOUR nurtured our friendship.

May our sweet college grow more and more.
In strength, magnificence and glory
The work of each one in this campus,

God's Mercy is Overwhelming!

*Millions of miles away,
Walking dreamily without a dream,
Into the woods,
With a thoughtful mind,
Behind me came a voice,
So pure, so divine, so majestic,
Which called me by my name!?!??
I turned hesitantly to see,
It was He!!
The Creator of the world, the Merciful Lord,
But a sudden sparkle arose,
He disappeared!
I could not remember more than that,
I fell into a pit,
I cried out for help,
A thin, old, grey and a short figure appeared,
The old man helped me come up who was an energetic young fellow,
I took my breath and turned around to thank him,
He too disappeared!
I thought over for a moment,
OH, the divine LORD is always MERCIFUL,
THE DISGUISED LORD SHOWERED HIS MERCY UPON ME!!
Whether big, whether small,
God's mercy is abundant,
A sudden cry woke me up,,
It was the alarm,
THIS WAS A DREAM!
Felt energetic and confident
that He is there to help me carry out my endeavours.*

*Is there a self - on whom one could rely?

Is there an eye - That has avoided the dark?
Is there a tongue - That never sets fire
Is there a hand - That never folded in want?
Is there a leg - That fears a stormy sea?
Is there a mind - That fears nothing but the Heaven?
Is there a human - With no thought of hatred?

MERCY *in this Global Era*

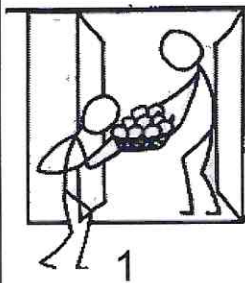

*There oceans of mercy I wanted to say,
From humanity to forgiveness that lead its way.
Of the former I was embarrassed to declare,
Cell phones rose when a tiger befriends a man;
Where at that moment of flash no hands rose to lend,
When he was to lose his life and set out to end.
The latter is our trademark I may flatter,
To all kind hearted citizens in this set of living,
Who'll vote them to rule and stroll with the secrets of uneven assets!
This land of its own legend echoing aloud of giving life,
To those who anchor their life here from far away;
A land flourished with humanity and forgiveness.
Oh! Poor words they stumble to reconcile the aura,
Stand hopeless to denote the mercy in this global era.*

Momma, what is Mercy?

Cha-cha, mercy is something beyond vengeance and ego

It can heal wounded hearts and nurses it

Travels across the walls of ego

Knows no harm even to the harmful

The best example is "Love your enemies"

Mercy and love are connected twins.

One should not hold back their hatred towards them

Instead heal the scar of bitterness with love.

Legendries who stood for love

Showed their mercy even upon the one

Who attempted to kill them

Thus they stood as an exemplary pillars of mercy

Oh mamma! you are a good teacher

You know so much about mercy

BUT.....

Why can't you show mercy towards daddy?

Isn't he more important than an enemy?!

Her eyes filled with tears

She kissed her son on his forehead

And said.....

Cha-cha thank You for teaching me

The meaning of the word mercy

You are a better teacher.

Meaning of Mercy

II M.A., English

The loving hand of God's mercy

The word....

Mercy

This is a Mean world - filled with mean, bad, jealous men... This is a place where cruelty rules; a place where the hearty cries of the poor and downtrodden are left unheard; a place where the rich get richer and the poor get poorer. In the eyes of the sufferers, all these might make the world seem DARKEVIL....such partiality....such cruelty...such pain. The pain weighs your knees and tries to pull you down. But there comes a moment in life, where you realize that your eyes are closed, unable to bear the succumbing pain.... But this might be the apt moment to open your eyes - to fight back the pain. And when your eyes are finally opened, rainbow colours of MERCY flow into your dark world and make it brighter - if not the Brightest. Mercy is the strongest force to destroy every evil. It serves as the key needed to set us free from a cage strongly locked by the above mentioned sins. Mercy is the unforgettable characteristic of the great Lord Himself. It might seem quite difficult to brighten up the whole dark world, as the darkness is not brought about by just one closed eye - your's, but millions like your's. It is just difficult - not IMPOSSIBLE. It all starts from you. All it needs in one opened eye to inspire the other million. So open your eyes - your heart and feel the mercy of the Lord. Don't just feel it... spread it and make others feel it too.

Like clustered rays of sun,

Like the glass that radiates different colours from the sun,

Fill your eyes with the melting candle,

Being Benign is a blessing

From Christ's mercy we learn many lessons

To attain this merciful fragrance, sacrifice yourself,

It is only through this sacrifice

REWARDS FOR MERCY...

Ms. CHINNA PILLAI

The story of Ms. Chinna Pillai is a very interesting and touching story. The empowerment of women is the need of the day- this inspiring benevolent woman Ms. Chinna Pillai has CXworked and planned so hard to help her suffering inmates of the village. Her fame spread like wild fire after she started a new banking system which had reduced poverty and debt drastically in her village. She had become a champion of mercy for women. Her merciful eyes, her thoughtful actions radiated from her merciful heart. It was indeed a very difficult journey in her life. She started a banking system where low budget loans were given to women at very small interest rates. The women who receive these loans use the money for the betterment of their lives. Due to the untiring efforts of Ms. Chinna Pillai poverty was eradicated gradually.

For this service to humanity Ms. Chinna Pillai's humaneness was rewarded. She received the Stree Shakthi Purashkar Award in 1999 from then Prime Minister Shri Atal Bihari Vajpayee, who bent and touched her feet in respect at the award function. Ms. Chinna Pillai has been interviewed by media many times and everytime she surprises people by her simple and rustic appearance. Her sun tanned skin, her girlish looks and her brisk walk catches everyone's attention. It is noteworthy to mention that this simple natured lady has been instrumental in eradicating poverty. By being merciful to others she is been rewarded abundantly. This true story of Ms. Chinna Pillai should touch our hearts and teach us that by sacrificing our lives for others will grant us inner peace and happiness.

G. Kaleeswari
B.Sc Chemistry "A"

You find a friend when you are worthy of being a friend. When your needs are satisfied, when with a grateful heart you gain the benefits of love's labour, when you find shelter and rest, when the pangs of hunger are stilled and when the turbulence of your mind is quelled, you have found a friend. You can accept a refusal from a caring friend and even reciprocate with willingness to attend to his pleas.

Communion between friends is at the heart level and needs no words; for it is unheralded joy that lies at the basis of such a relationship. It is this joy that gives life to shared dreams, thoughts and desires. Physical separation does not cause them pain but a deeper understanding. Whatever is loved best in each other becomes as clear as a mountain is to a climber from the plains.

There can be no base motive in the establishing of a relationship. Else, relationships are meant only to share another for a particular gain. When once the purpose is served it fades or ends in bad taste. Such a relationship is in other words, fruitless. Lasting friendships on the other hand seeks to unravel the mysterious fabric of the soul that stands in the way of binding two friends. There is a persistent effort from each side to find the other. This therefore must be the only purpose of friendship, if it is to grow in spirit.

How should a man then go about building true friendship? He must offer the best that he possesses and reveal not just the miseries of his life but also it's joys. Reveal weaknesses and fault, ability and talent.

A friend is not one who accompanies another in wasteful occupation, but rather for purposeful living. He satisfies needs and not the emptiness of craving.

Sweet friendship can share laughter and pleasure in the most mundane, and yet feel as refreshing as the dew drops of a new day.

கிரக்கத்தின் ஆண்டு

முன்னுரை:

"ஆயிரக்கணக்கான நெருங்கிய உறவினர்களைக்காட்டிலும் சமூக கிரக்கவுணர்வு காரணமாக உள்ளமுருகும் ஒருவர் எவ்வளவோ மேலானவர்!"

மற்றவர்களது உணர்வில் ஆழ்ந்து ஈடுபடும் பண்பே கிரக்க உணர்வாகும். நமக்கு அருகிருப்பவரது உணர்வையும் பரிவையும் புரிந்துகொண்டு, அவர்களது துன்பங்களையும், துயரங்களையும் பகிர்ந்துகொள்ளும் ஆற்றலே கிரக்க உணர்வாகும். துன்பத்தில் ஆழ்ந்துகிடப்பவரது பாதிப்பை உணர்ந்து கொள்வதற்கு கிரக்கவுணர்வு உதவுகிறது. கிரக்கத்திற்கு எடுத்துக்காட்டாக நமது அன்னை தெரசா அவர்கள், துன்பத்தில் துவண்டவர்களையும், நோயுற்றவர்களையும் தனது கிரக்கத்தால் குணப்படுத்தினார்.

மனதளவில் கிருவேறு மனிதர்களுக்கு கிடையில் நிலவும் கிடைவெளியை கிரக்கவுணர்வு கிணைத்துவிடுகிறது.

கிரக்கம்:

துன்பத்தால் லீழ்ந்து கிடப்பவரது உள்ளத்தின் உணர்வுகளை அதே அலைகளின் அளவில் ஒத்து உணரச் செய்கிறது. பாதிக்கப்பட்டவர்களுக்கு ஆறுதல் வழங்குமாறு கிரக்கவுணர்வு தூண்டுகிறது. ஒருவருக்கு ஏற்பட்ட துன்பத்தைத் தாங்கி கொள்ளுமாறு ஊக்கத்தையும், வலிமையினையும், ஆறுதலையும் அது வழங்குகிறது. சகமனித உணர்வு தயவு ஆகியவற்றின் காரணமாக கிரக்கவுணர்வு பெருக்கெடுக்கின்றது. மென்மையான கிதயமும், பிறர் உணர்வின் மீதான அக்கறையும் துன்பத்தைப் பற்றிய கரிசனையும் காட்டுவது மெல்லுணர்வு என்று பொருளுணரப்படுகிறது. அது ஒருவரது உள்ளத்தை மென்மையினாலும், அருள் பண்பினாலும் போர்க்குத்துகின்றது. மனிதர்கள் இன்னல்களால் வருந்தும் பொழுது ஆறுதல் அளிக்கிறது. அன்பைச் செயலளவுக்குக் கொண்டு செலுத்தும் ஆற்றல் மிக்கதாக கிரக்கவுணர்வு திகழ்கிறது.

கிரக்கத்தை பற்றிய ஒரு சிறுநிகழ்வு:

பாரிசு மாநகரத்தில் கிரண்டு லிண்டென் வீரர்களுக்கு சிறப்பான வரவேற்பு வழங்கப்பட்டது. பல்லாயிரக்கணக்கான மக்கள் அவர்கள் தங்கியிருந்த விடுதிக்கு வெளியில் ஒன்று கூடினர். அவர்கள் இருவரும் வெளியே

வந்துநின்ற பொழுது ஆம்ஸ்டிராங் முன்னாலே வந்தார். காவல் துறையினர் ஏற்படுத்தியிருந்த கடைகளை உடைத்து விட்டு நேராக தான் சென்று அமரகாத்திருந்த காரை நோக்கி அவர் செல்லவில்லை வேறு திசையில் சென்றார். அனைவர் கண்களும் அவர் பின்னே சென்றன. சக்கர நாகாலியில் அவரைக் காண வந்த மனிதரை நோக்கி சென்றார். கால்கள் ஊனமுற்றிருந்த அந்த மனிதரால் நடக்க கியலாது தனது அறையின் சன்னல் வழியாக ஆம்ஸ்டிராங் அவரை பார்க்கிறார். அப்போது அங்கே அழகான நிகழ்ச்சி ஒன்று நிகழ்ந்தது பழைய நெருங்கிய நண்பர்கள் போல இருவரும் உரையாடிக் கொண்டிருந்தனர், கிது ஒரு “அற்புதமான காட்சி அல்லவா? உலகிலேயே வேகமாக பயணம் செய்யும் மனிதரும் உலகில் மெதுவாக செல்லும் மனிதரும் சந்தித்து கொள்கிறார்கள்” அப்போது என் உள்ளத்தில் இருக்கேள்வி உதயமாகிறது எது கடினமானது? நிலவுக்குச் செல்வதா? அல்லது நுடையற்றுபோன மனிதர்மீது அக்கறை காட்டுவதா?

கிரக்கவுணர்வைப் பண்படுத்தி வளர்க்குகொள்ள வழிமுறைகள் :

- துன்பத்தில் கிடந்து தவிப்போரை உணர்வுப்பூர்வமாகப் புரிந்து கொள்ளுதல்.
- நெருக்கடியான வேளைகளில் இருவரைப் புரிந்துகொண்டு கிசைவான உணர்வை வெளிப்படுத்துதல்.
- மூளைவளர்ச்சிக்குன்றிய, மனநிலை பாதிக்கப்பட்ட மக்களுக்கு கம்மால் கியன்ற உதவிகளைச் செய்தல்.
- பிறர் துன்பங்களை எதிர்கொள்வதற்கு உதவி புரிதல்.
- துன்பத்தில் வீழ்ந்து கிடப்போர்க்கு உதவுதல்.
- நோயாளிகளைச் சந்தித்து ஆறுதல் கூறுதல்.
- வயது முதிர்ந்தோர், புறக்கணிக்கப்பட்டோரைப் பேணுதல்.

முடிவுரை :

சமூக மதிப்புகளில் ஒன்றாக கருதப்படுவது கிரக்க உணர்வு ஆகும். நாமும் கிரக்க உணர்வோடு மற்றவர்களுக்கு உதவிபுரிய வேண்டும். மேலும் கிவ்வாண்டை கிரக்கத்தின் ஆண்டாக பின்பற்ற வேண்டும்.

இரக்கத்தின் ஆண்டி

இரக்கம் என்னும் ஐந்தெழுத்து சொல்
இருக்கட்டும் என்றும் நம் மனதுக்குள்
குற்றமில்லா குணம் படைத்தவரை
குறைவில்லாமல் நம்மை நடத்துபவரை
துணிந்து பேசினோம்... தலை உயர்த்திச் சொன்னோம்...
ஏன் இவ்வாறு...? எதனால் இவ்வாறு...?
கடவுள் சோதிக்கிறார் என்று...
எச்சமயம்... அதுவே வெள்ளம் வந்த சமயம்
அவர் சோதித்தது உண்மையோ பொய்யோ தெரியவில்லை
ஆனால் அந்நேரம் மனிதக்குலத்திடமிருந்து
வெளிவந்தது இரக்ககுணம் என்பதில் சிறிதும் சந்தேகமில்லை
நம் பாவம் போக்க அவர் உயிர் துறந்தாரே
நாம் உயர அவர் தம்மை தாழ்த்தினாரே
நல்வாழ்கை நாம் வாழ
வறுமை விரும்பி ஏற்றாரே
அத்தகைய அன்பின் பரம மிதா நமக்கு தந்த
ஆண்டல்லவா இந்த இரக்கத்தின் ஆண்டு...
தொடரும் என் நினைவுகளை
சற்று நிறுத்திச் சொன்னேன்...
குறளுக்கு சான்று திருவள்ளுவர்...
குணத்துக்கு சான்று அன்னைதெரசா...
இரக்கத்துக்கு சான்று நாமாக இருக்கலாமே...

அன்புக்காக ஏங்கியது என் மனம்
இரக்கத்தை களைந்தேன் ஒரு மூலக்கூறாக அன்பு கிடைத்தது !
அதனால்தான் இரக்கத்தை எதிர்பார்கிறதோ? மனம்...
